Clarifying our best effort practices:

If there is missing data on an individual who contributed in excess of \$200, we first send a letter, or "Best Effort" requesting such information, such as name, address, employer, occupation, etc., and in the letter it is stated that such a request is made as per the requirements of federal law.

Secondly, if we are unsuccessful in obtaining this information, a second follow up is made via a letter within 30 days of receipt of the contribution. Again, the missing data is re-solicited, in addition, to referencing the requirements of federal law for reporting such information. It is made very clear that the nature of this follow up letter is to seek missing information and not an attempt to solicit another contribution. A self-addressed stamped envelope is enclosed for their convenience.

Upon receipt of the missing information, an amendment is filed upon the next regularly scheduled reporting date.
